Next week it could be you. Join now.

Breakfast at Home

The National School Breakfast Programme is pleased to announce the launch of its Family Action website. The area shares with parents the benefits of eating a healthy breakfast, and the impact this can

have on your child's health, well being, and their readiness to learn.

The website offers parents support tools in the way of family fun, top tips, recipes, family quizzes and much more. To find this information log onto: www.family-action.org.uk/BreakfastAtHome

**Health Week 14—18 June**

Next week is health week—children will be learning about two main areas—Healthy Eating and Oral Hygiene.

During the week we will be learning more about oral hygiene and how to look after our teeth.

We will be learning how to have a healthier diet by participating in the National Eat them to Defeat Them Campaign. You can help at home by encouraging your child to focus on trying a variety of different vegetables or fruit throughout the week.

We will also be running a covid-secure sports 'day' with each class taking part in sports activities. Unfortunately due to restrictions we will not be able to invite parents/carers to the event this year.

This week's class attendance

FS2	1/2	3/4	5/6
92.5%	93.0%	99.3%	93.9%

Every day in school makes a difference to your child's future.

#EVERYDAYCOUNTS

**#EVERYDAYCOUNTS**

Swimming Y5/Y6

Children in year 5/6 will have received a letter informing them of swimming lessons at Calday pool week commencing 14th June. Please make sure children follow the instructions on the letter sent home i.e. come to school swim wear ready—changing rooms will only be available after their swim. Please ensure your child has their towel and change of underwear with them every morning.

Summer

As the weather continues to improve, please ensure that children have sun cream applied before coming to school. Please also make sure that they have a water bottle, and a sun hat.

Magnets

Parents please have a look at this warning on <https://england.nhs.uk/2021/05/dangers> about the small, powerful magnets that are popular at the moment. A potentially life threatening TikTok trend, involving tiny magnets that can be easily swallowed, has triggered the NHS to call for a ban. These tiny magnetic balls are widely sold as creative toys, with a recent TikTok craze seeing them used as fake facial piercings by teenagers.

The viral prank sees people place two magnetic balls either side of their tongue and wiggle it around, creating the illusion that their piercing is real. If swallowed the magnetic objects are forced together in the intestines or bowels, squeezing the tissue so that the blood supply is cut off. Ingesting more than one can be life-threatening and cause significant damage within hours.

Now, England's top children's doctor wants them banned altogether to prevent further incidents, after at least 65 children were admitted to hospital for urgent surgery after swallowing magnets.

School Lottery

The school lottery is drawn every Saturday. The cash prize winner is always going to be someone connected to school; a parent, family friend or staff. You have to be in it to win it, so why not join and encourage family members to do the same. The more people that join, the higher the prize fund - NEXT time it could be you!
