Thursday 3rd May

Friday 4th May 2018

FASTworks

1.30pm

Entrance via side of reception

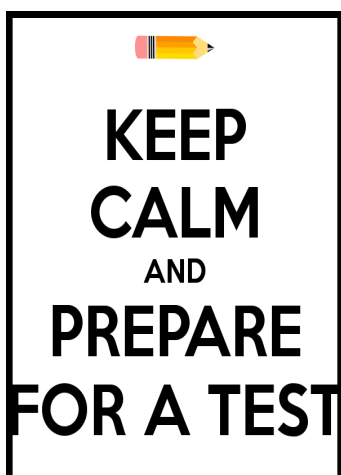

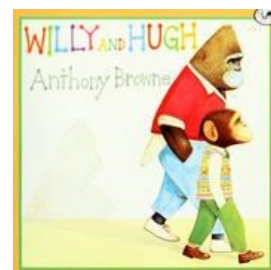

Tuesday 8th May

Board Games

3.15pm

The Learning Hub

Since returning from the Easter holidays, the children in the learning hub have been amazing us with their growth mindset and positive attitude towards their learning. In their Singapore maths work the children in year 1 have been learning about multiplication and the children in year 2 are honing their skills at telling the time. As a team, they have all been studying some of the works by Anthony Browne and are enjoying developing their understanding of how the characters think, feel and behave. Soon they will be writing their own stories using these characters and we are hoping to publish these as a class book for you to purchase.

Currently the children in our **year 2** class are gearing up for the SAT s at the end of May. They have been working tirelessly to ensure that every minute in school is a learning minute and are fully prepared to be successful with these tests. Don't forget that you can help them to be even more prepared by supporting them with all of their home learning.

Book Fair is coming next week, bringing a selection of the very best books to inspire and entertain young readers and earn **free books and resources for our school**. The book Fair will be accessible after-school **in the school hall at 3.15pm from 30th April 2018 to 4th May 2018**. Have a flick through your leaflet and come along to peruse our great selection of books. We will also have a '**3 for 2**' offer available on all items. We also have **£25 in book tokens** to give away to some lucky winners for writing a book review at home. Send them in to be judged.
