APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

APPENDIX A:

The role of the Designated Safeguarding Lead

1 MANAGING REFERRALS

- 1.1 Refer all safeguarding cases including **Early Help** to the **Integrated Front Door (IFD)** and to the Police if a crime may have been committed.
- 1.2 Identify any safeguarding issues relating to individual children, especially ongoing enquiries under section 47 of the Children Act 1989.
- 1.3 Act as a source of support, advice and expertise to staff members on matters of child protection and safeguarding.
- 1.4 Escalate inter-agency concerns and disagreements about a child's wellbeing. Further information can be found here: <https://www.wirralsafeguarding.co.uk/procedures/10-2-multi-agency-escalation-procedure/>
- 1.5 Have responsibility to ensure there is a Key Adult for Operation Encompass and the point of contact for Child Sexual Exploitation
- 1.6 To ensure that the Local Authority are notified if children are persistently absent or missing from education

2 RECORD KEEPING

- 2.1 Keep written records of Safeguarding and welfare concerns and ensure a stand-alone file is created as necessary for children with safeguarding concerns
- 2.2 Schools should have at least two emergency contacts for every child in the school in case of emergencies, and in case there are welfare concerns at the home (KCSIE 2018)
- 2.3 Maintain a chronology of significant incidents for each child with safeguarding concerns
- 2.4 Ensure such records are kept confidentially and securely and separate from the child's educational record.
- 2.5 When a child leaves our school, the Designated Safeguarding Lead will make contact with the Designated Safeguarding Lead at the new school and will ensure that the safeguarding file is forwarded to the receiving school within two weeks. We will retain evidence to demonstrate how the file has been transferred; this may be in the form of a written confirmation of receipt from the receiving school and/or evidence of recorded delivery. Where a parent elects to remove their child from the school roll to home educate, the school will make arrangements to pass any safeguarding records to the Education Social Welfare Service.

3 INTER-AGENCY WORKING AND INFORMATION SHARING

- 3.1 Cooperate with Children's Social Care for enquiries under section 47 of the Children Act 1989.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

- 3.2 Complete reports and attend, or ensure other relevant staff members attend, child protection conferences, core group meetings and other multi-agency meetings, as required.
- 3.3 Liaise with other agencies working with the child, share information as appropriate and contribute to assessments.

4 TRAINING

- 4.1 Undertake appropriate training, **updated every two years**, in order to
 - be able to recognise signs of abuse and how to respond to them, including special circumstances such as child sexual exploitation, female genital mutilation, fabricated or induced illness
 - understand the assessment process for providing early help and intervention, e.g. WSCB thresholds of need
 - have a working knowledge of how the local authority conducts initial and review child protection case conferences and contribute effectively to these; and
 - be alert to the specific needs of children in need (as specified in section 17 of the Children Act 1989), those with special educational needs, pregnant teenagers and young carers.
- 4.2 Ensure each member of staff has read and understands the school's safeguarding policy and procedures, including providing induction on these matters to new staff members. Induction training, must include the school's behaviour policy and the school's procedures for managing children who are missing education, as well as the staff code of conduct, and the child protection policy.
- 4.3 Organise whole-school Safeguarding training for all staff members at least **every three years**. Ensure staff members who miss the training receive it by other means, e.g. by joining another school's training. The DSL must provide all staff members with safeguarding updates (for example, via email, e-bulletins and staff meetings), as required, but at least annually, to provide them with relevant skills and knowledge to safeguard children effectively.
- 4.4 Keeping Children Safe in Education (2018) Part 1 has to be read by all members of the staff; and for everyone working directly with children, Annex A must also be read. Link with Wirral Safeguarding Children Board to identify appropriate training opportunities for relevant staff members and refer to the safeguarding issues listed in Keeping Children Safe in Education.
- 4.5 Ensure the school allocates time and resources every year for relevant staff members to attend training.
- 4.6 Encourage a culture of listening to children and taking account of their wishes and feelings in any action the school takes to protect them.
- 4.7 Maintain accurate records of staff recruitment, induction and training.

WSCB School / College / Educational establishment training courses can be found here:

<https://www.wirralsafeguarding.co.uk/schools/>

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

5 AWARENESS RAISING

- 5.1 Review the safeguarding policy and procedures annually and liaise with the school's governing body to update and implement them
- 5.2 Make the safeguarding policy and procedures available publicly and raise awareness of parents that referrals about suspected abuse may be made and the role of the school in any investigations that may follow.
- 5.3 Provide an annual briefing to the school on any changes to safeguarding legislation and procedures and relevant learning from local and national serious case reviews.

6 QUALITY ASSURANCE

- 6.1 Monitor the implementation of and compliance with policy and procedures, including periodic audits of Safeguarding and welfare concerns files (at a minimum once a year).
- 6.2 Complete an audit of the school's safeguarding arrangements at frequencies specified by the Wirral Safeguarding Children Board.
- 6.3 Provide regular reports, to the governing body detailing changes and reviews to policy, training undertaken by staff members and the number of children with child protection plans and other relevant data.
- 6.4 Take lead responsibility for remedying any deficiencies and weaknesses identified in Safeguarding arrangements.

7 SUPERVISION AND REFLECTION

- 7.1 Working to ensure children and young people are protected from harm requires sound professionals judgements to be made. It is demanding work that can be distressing and stressful. It is therefore essential that staff involved in this work have access to advice and a robust process of reflection/ supervision to help them reflect upon and review their work.
- 7.2 The school will have a framework for providing an opportunity to staff who are working directly with vulnerable young people, particularly those who are being managed on a child protection, child in need or team around the family plan, to have regular access to an appropriate manager to talk through and reflect on their involvement with the child's case. A guidance document published by the Wirral Safeguarding Children Board for undertaking safeguarding reflection is published on the WSCB website and can be accessed here:

<https://www.wirralsafeguarding.co.uk/procedures/>

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

APPENDIX B: Safeguarding Procedure

1 DEFINITIONS

- 1.1 **Abuse:** a form of maltreatment of a child. Somebody may abuse or neglect a child by inflicting harm or by failing to act to prevent harm. Children may be abused in a family or in an institutional or community setting by those known to them or, more rarely, by others (e.g. via the internet). They may be abused by an adult or adults or another child or children.
- 1.2 **Children** are any people who have not yet reached their 18th birthday; a 16-year-old, whether living independently, in further education, in the armed forces or in hospital, is a child and is entitled to the same protection and services as anyone younger.
- 1.3 **Child protection** is part of safeguarding and promoting the welfare of children and refers to activity undertaken to protect specific children who are suffering, or likely to suffer, significant harm.
- 1.4 **Early help** means providing support as soon as a problem emerges, at any point in a child's life, from the foundation years to teenage years.
- 1.5 **Harm** is ill treatment or impairment of health and development, including impairment suffered from seeing or hearing the ill treatment of another.
- 1.6 **Safeguarding children** is the action we take to promote the welfare of children and protect them from harm. **Safeguarding and promoting the welfare of children** is defined as:
- protecting children from maltreatment;
 - preventing impairment of children's health and development;
 - ensuring that children grow up in circumstances consistent with the provision of safe and effective care; and
 - taking action to enable all children to have the best outcomes.

All staff must have an awareness of safeguarding issues. Staff should be aware that behaviours linked to the likes of drug taking, alcohol abuse, truancy and sexting put children in danger.

All staff must be aware safeguarding issues can manifest themselves via peer on peer abuse. This is most likely to include, but not limited to: bullying (including cyber bullying), gender based violence/sexual assaults and sexting. Staff should be clear as to the school or college's policy and procedures with regards to peer on peer abuse.

- 1.7 **Significant harm** is the threshold that justifies compulsory intervention in the family in the best interests of the child. Section 47 of the Children Act 1989 states 'where the question of whether harm suffered by a child is significant turns on the child's health or development, his health or development shall be compared with that which could reasonably be expected of a similar child.'

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

2 CATEGORIES OF ABUSE

2.1 **Emotional abuse** is the persistent emotional maltreatment of a child such that it causes severe and persistent adverse effects on the child's emotional development. It may involve:

- making a child feel worthless, unloved or inadequate
- only there to meet another's needs
- inappropriate age or developmental expectations
- overprotection and limitation of exploration, learning and social interaction
- seeing or hearing the ill treatment of another, e.g. domestic abuse
- serious bullying
- exploitation or corruption

Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

2.2 **Neglect** is the persistent failure to meet a child's basic physical or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance misuse. Once a child is born, it may involve a parent failing to:

- provide adequate food, clothing and shelter, including exclusion from home or abandonment
- protect a child from physical and emotional harm or danger
- ensure adequate supervision, including the use of inadequate care givers
- ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

2.3 **Physical abuse** may involve hitting, shaking, throwing, poisoning, burning, scalding, drowning, suffocating, or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

2.4 **Sexual abuse** involves forcing or enticing a child or young person to take part in sexual activities, including prostitution, whether or not the child is aware of what is happening. Activities may involve physical contact, including penetration of any part of the body, or non-penetrative acts. They may include non-contact activities, such as involving children looking at or in the production of sexual images, including on the internet, watching sexual activities, or encouraging children to behave in sexually inappropriate ways.

There are three thresholds for and types of referral that need to be considered:

Is this a child with additional needs; where their health, development or achievement may be adversely affected? Practitioners should follow Wirral's Guide to Integrated Working, November 2015.

- Age appropriate progress is not being made and the causes are unclear or
- The support of more than one agency is needed to meet the child or young person's needs.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

If this is a child with additional needs discuss the issues with the Family CAF trained practitioner in your school, the child and parents. You will need to obtain parental consent for a Family CAF to be completed.

Is this a child in need matter? Section 17 of the Children Act 1989 says:

- they are unlikely to achieve or maintain, or to have opportunity to achieve or maintain a reasonable standard of health or development, without the provision of services by a local authority.
- their health or development is likely to be impaired, or further impaired without the provision of such services.
- they are SEND.

If this is a child in need, discuss the issues with the Designated Safeguarding Lead and parents. Obtain their consent for referral.

Is this a child protection matter? Section 47 of the Children Act 1989 says:

- children at risk or who are suffering significant harm.
- children suffering the effects of significant harm
- serious health problems.

If this is a child protection matter, this should be discussed with the Designated Safeguarding Lead and will need to be referred to the Integrated Front Door by the school as soon as possible.

<https://www.wirralsafeguarding.co.uk/public/concerned-about-a-child/>

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

APPENDIX C: FURTHER INFORMATION

1 Female Genital Mutilation:

Female Genital Mutilation (FGM) comprises all procedures involving partial or total removal of the external female genitalia or other injury to the female genital organs. It is illegal in the UK and a form of child abuse with long-lasting harmful consequences.

Professionals in all agencies, and individuals and groups in relevant communities, need to be alert to the possibility of a girl being at risk of FGM, or already having suffered FGM.

1.1 Indicators

There is a range of potential indicators that a girl may be at risk of FGM. Warning signs that FGM may be about to take place, or may have already taken place, can be found on pages 16-17 of the Multi-Agency Practice Guidelines , and Chapter 9 of those Guidelines (pp42-44) focuses on the role of schools and colleges.

Section 5C of the Female Genital Mutilation Act 2003 (as inserted by section 75 of the Serious Crime Act 2015) gives the Government powers to issue statutory guidance on FGM to relevant persons. Once the government issues any statutory multi-agency guidance this will apply to schools and colleges.

1.2 Actions

If staff have a concern they should activate local safeguarding procedures, using existing national and local protocols for multi-agency liaison with police and children's social care. Mandatory reporting commenced in October 2015. These procedures remain when dealing with concerns regarding the potential for FGM to take place. Where a teacher discovers that an act of FGM appears to have been carried out on a girl who is aged under 18, there will be a statutory duty upon that individual to report it to the police.

1.3 Mandatory Reporting Duty

Section 5B of the Female Genital Mutilation Act 2003 (as inserted by section 74 of the Serious Crime Act 2015) will place a statutory duty upon **teachers, along with social workers and healthcare professionals, to report to the police** where they discover (either through disclosure by the victim or visual evidence) that FGM appears to have been carried out on a girl under 18. Those failing to report such cases will face disciplinary sanctions. It will be rare for teachers to see visual evidence, and they should not be examining pupils, but the same definition of what is meant by "to discover that an act of FGM appears to have been carried out" is used for all professionals to whom this mandatory reporting duty applies.

The Mandatory reporting duty commenced in October 2015. Teachers must report to the police cases where they discover that an act of FGM appears to have been carried out. Unless the teacher has a good reason not to, they should still consider and discuss any such case with the school's designated safeguarding lead and involve the Integrated Front Door as appropriate.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

2 Fabricated Illness:

- 2.1 Staff must be aware of the risk of children being abused through fabricated illness. There are three main ways of the carer fabricating or inducing illness in a child. These are not mutually exclusive and include:
- fabrication of signs and symptoms. This may include fabrication of past medical history;
 - fabrication of signs and symptoms and falsification of hospital charts and records, and specimens of bodily fluids. This may also include falsification of letters and documents;
 - induction of illness by a variety of means.
- 2.2 Where this is identified and considered a risk a referral will be made to **The Integrated Front Door (IFD)** for support and guidance. School may involve other agencies in making their assessments. That could include school nurse, community paediatrician, occupational therapists etc.

3 Gang and Youth Violence:

- 3.1 Children and Young People who become involved in Gangs are at risk of violent crime and as a result of this involvement are deemed vulnerable. Agencies and professionals have a responsibility to safeguard these children and young people and to prevent further harm both to the young person and their potential victims. Risks associated with Gang activity include access to weapons (including firearms), retaliatory violence and territorial violence with other gangs, knife crime, sexual violence and substance misuse
- 3.2 **Indicators may be (age in brackets):**
- Troublesome (7-9; 10-12)
 - High daring (10-12)
 - Positive attitude towards delinquency (10-12)
 - Previously committed offences (7-9)
 - Involved in anti-social behaviour (10-12)
 - Substance use (7-9)
 - Aggression (7-9)
 - Running away and truancy (7-9; 10-12)
 - Marijuana use (10- 12)
 - Disrupted family (7- 9; 10-12)
 - Poor supervision (10-12)
 - Low academic achievement in primary school (10- 12)
 - Learning disability (10-12)
 - Peers involved in crime and/or anti-social behaviour (7-9; 10-12)
 - Marijuana availability (10-12)
 - Children and young people in the neighbourhood involved in crime and/or anti-social behaviour (10-12)

(Preventing Youth Violence and gang Involvement for Schools and Colleges – Home Office)

4 Faith Based Abuse:

- 4.1 Our policy recognises the 'National Action Plan to Tackle Abuse linked to faith or belief' which describes this abuse as:

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

‘not about challenging people’s beliefs, but where beliefs lead to abuse that must not be tolerated. This includes belief in witchcraft, spirit possession, demons or the devil, the evil eye or djinns, dakini, kindoki, ritual or muti murders and use of fear of the supernatural to make children comply with being trafficked for domestic slavery or sexual exploitation. The beliefs which are not confined to one faith, nationality or ethnic community.’

- 4.2 When this type of abuse is suspected staff will make a referral will make a referral to Wirral MASH for support and guidance. School may request the advice and support of MEAS service in making their assessments.

<https://www.gov.uk/government/publications/national-action-plan-to-tackle-child-abuse-linked-to-faith-or-belief>

5 Risk to Trafficking:

- 5.1 Article 3 of the Palermo Protocol to Prevent, Suppress And Punish Trafficking In Persons, Especially Women And Children, Supplementing the United Nations Convention Against Transnational Organised Crime to the UN Convention (2000) (ratified by the UK on 6 February 2006) defines trafficking as:

- (a) “Trafficking of persons” shall mean the recruitment, transportation, transfer, harbouring or receipt of persons, by means of the threat of or use of force or other forms of coercion, of abduction, of fraud, of deception, of the abuse of power or of a position of vulnerability or of the giving or receiving of payments or benefits to achieve the consent of a person having control over another person, for the purpose of exploitation. Exploitation shall include, at a minimum, the exploitation of the prostitution of others or other forms of sexual exploitation, forced labour or services, slavery or practices similar to slavery, servitude or the removal of organs.
- (b) The consent of a victim of trafficking in persons to the intended exploitation set forth in subparagraph (a) of this article shall be irrelevant where any of the means set forth in subparagraph (a) have been used.
- (c) The recruitment, transportation, transfer, harbouring or receipt of a child for the purpose of exploitation shall be considered “trafficking in persons” even if this does not involve any of the means set forth in subparagraph (a) of this article
- (d) “Child” shall mean any person under eighteen years of age.

- 5.2 Children trafficked into the country may be registered at a school for a term or longer, before being moved to another part of the UK or abroad. This pattern of registration and de-registration may be an indicator that a child has been trafficked. It has been identified as a particular concern in schools which are situated near ports of entry, but practitioners should be alert to this possibility in all schools. However, practitioners should always bear in mind that not all children who go missing from education have been victims of trafficking. For example, there may be instances of children from communities that move around – Gypsy, Roma, traveller or migrant families – who collectively go missing from school.

- 5.3 If a member of the school staff suspects that a child may have been trafficked they should act immediately to inform the senior member of staff with designated responsibility for child protection and ensure that police or local authority children’s social care are contacted immediately.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

6 Risks Associated with Parent/Carer Mental Health:

- 6.1 The majority of Parents who suffer mental ill-health are able to care for and safeguard their children and/or unborn child.

Some parents, however, will be unable to meet the needs and ensure the safety of their children. The school will follow the guidance outlined in 'working with parents with mental health problems and their children (Think child, think parent, think family: a guide to parental mental health and child welfare).

- 6.2 Our approach is to recognise; seek support; instil preventive factors and monitor. The Integrated Front Door can provide links and support with Wirral Adult Social Care if required. Designated teacher should seek support through TAF with family support but escalate to the Integrated Front Door if they are concerned that the child involved is being placed at immediate risk of harm. The **CAMHS and Early Help Resource-and-Information-Pack** details the Early Help services available to children, young people and their families. The offer includes mental health support services

<https://www.wirralsafeguarding.co.uk/professionals/what-is-early-help/>

7 Drugs and Alcohol:

- 7.1 Children can be at risk of drugs and alcohol directly and indirectly.

They may be at direct risk of having access to these substances (see guidance on gangs) or indirectly because they affect family life at home through use by parents/carers, siblings, child-minders etc. Risks associated with drugs and alcohol are built into the year 5-6 curriculum. We work with our partners and Wirral LA to provide curriculum advice and guidance in this area.

8 Honour Based Violence and Forced Marriages:

- 8.1 Honour Based Violence and Forced Marriage refers to a collection of practices used to control behaviour within families to protect perceived cultural or religious beliefs and honour. Violence can occur when offenders perceive that a relative has shamed the family or community by breaking their 'code of honour'. Honour Based Violence cuts across all cultures and communities: Turkish, Kurdish, Afghani, South Asian, African, Middle Eastern, South and Eastern European for example. This is not an exhaustive list. Where a culture is heavily male dominated, HBV may exist.

- 8.2 'A forced marriage is a marriage in which one or both spouses do not (or, in the case of some vulnerable adults, cannot) consent to the marriage and duress is involved. Duress can include physical, psychological, financial, sexual and emotional pressure.'

- 8.3 For more information see;

<http://www.fco.gov.uk/en/travel-and-living-abroad/when-things-go-wrong/forced-marriage/>

<http://www.fco.gov.uk/en/travel-and-living-abroad/when-things-go-wrong/forced-marriage/case-studies/safer-schools-partnership>

<http://www.karmanirvana.org.uk/>

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

9 Managing Allegations against staff:

9.1 The Local Authority Designated Officer for Allegations (**LADO**) **must be told of allegations against adults working with children and young people within 24 hours.** Chairs of Governors should refer to this guidance if there is an allegation against the headteacher. This includes all cases where a person is alleged to have:

- behaved in a way that has harmed, or may have harmed a child
- possibly committed a criminal offence against, or related to, a child
- behaved towards a child or children in a way that indicates they may pose a risk of harm to children

9.2 The Local Authority Designated Officer for Allegations (LADO) in Wirral is:
Suzanne Cottrell:

- call 0151 666 4582
- email suzannecottrell@wirral.gov.uk

If judged appropriate during the initial contact with the LADO, an Allegations Referral Form must be completed by the senior manager in full and forwarded to the LADO via email within 24 hours. LADO referral form, flowcharts and information can be accessed here:

<https://www.wirralsafeguarding.co.uk/professionals/lado-allegations>

The LADO procedure does not replace safeguarding procedures and the **Integrated Front Door** must be contacted if you have a safeguarding concern about a child. If you require advice about your agencies response to an allegation please contact your HR provider.

The LADO can only provide advice and guidance regarding allegations in relation to a person in a position of trust. Any general safeguarding enquiries or concerns should be reported to Wirral Children's Services on 0151 606 2008 or 0151 677 6557 out of hours. The LADO cannot provide advice to professionals subject to allegations, support and *investigation updates should be sought directly from the investigating agency or employer.*

10 Preventing Radicalisation:

Protecting children from the risk of radicalisation should be seen as part of schools' wider safeguarding duties, and is similar in nature to protecting children from other forms of harm and abuse. During the process of radicalisation it is possible to intervene to prevent vulnerable people being radicalised.

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism. There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. Specific background factors may contribute to vulnerability which are often combined with specific influences such as family, friends or online, and with specific needs for which an extremist or terrorist group may appear to provide an answer. The internet and the use of social media in particular has become a major factor in the radicalisation of young people.

As with managing other safeguarding risks, staff should be alert to changes in children's behaviour which could indicate that they may be in need of help or protection. School staff should use their professional judgement in identifying children who might be at risk of radicalisation and act proportionately which may include making a referral to the Channel programme.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

10.1 Prevent

From 1 July 2015 all schools are subject to a duty under section 26 of the Counter-Terrorism and Security Act 2015 ('The CTSA 2015')

Schools must have regard to statutory PREVENT GUIDANCE issued under section 29 of the CTSA 2015.

Paragraphs 57-76 of the Prevent guidance are concerned specifically with schools' responsibility to the need to prevent people from being drawn into terrorism."

This duty is known as the Prevent duty. It applies to a wide range of public-facing bodies.

The statutory Prevent guidance summarises the requirements on schools in terms of four general themes:

- risk assessment,
- working in partnership,
- staff training
- IT policies.

Schools are expected to **assess the risk** of children being drawn into terrorism, including support for extremist ideas that are part of terrorist ideology. This means being able to demonstrate both a general understanding of the risks affecting children and young people in the area and a specific understanding of how to identify individual children who may be at risk of radicalisation and what to do to support them. Schools and colleges should have clear procedures in place for protecting children at risk of radicalisation. These procedures may be set out in existing safeguarding policies. **It is not necessary for schools and colleges to have distinct policies on implementing the Prevent duty.**

The Prevent duty builds on **existing local partnership arrangements**. For example, governing bodies and proprietors of all schools should ensure that their safeguarding arrangements take into account the policies and procedures of Local Safeguarding Children Boards (LSCBs).

The Prevent guidance refers to the importance of Prevent **awareness training** to equip staff to identify children at risk of being drawn into terrorism and to challenge extremist ideas. Individual schools are best placed to assess the training needs of staff in the light of their assessment of the risk to pupils at the school of being drawn into terrorism. *As a minimum, however, schools should ensure that the designated safeguarding lead undertakes Prevent awareness training and is able to provide advice and support to other members of staff on protecting children from the risk of radicalisation.*

Schools must ensure that children are safe from terrorist and extremist material when **accessing the internet** in schools. Schools should ensure that suitable filtering is in place. It is also important that schools teach pupils about online safety more generally. Further information and guidance is available on the WSCB website:

<https://www.wirralsafeguarding.co.uk/radicalisation-and-extremism/>

The Department for Education has also published advice for schools on the Prevent duty and is intended to complement the Prevent guidance and signposts other sources of advice and support.

<https://www.gov.uk/government/publications/protecting-children-from-radicalisation-the-prevent-duty>

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

10.2 Channel

School staff should understand when it is appropriate to make a referral to the Channel team. Channel is a programme which focuses on providing support at an early stage to people who are identified as being vulnerable to being drawn into terrorism. It provides a mechanism for schools to make referrals if they are concerned that an individual might be vulnerable to radicalisation. An individual's engagement with the programme is entirely voluntary at all stages.

Section 36 of the CTSA 2015 places a duty on local authorities to ensure Channel panels are in place. The panel must be chaired by the local authority and include the police for the relevant local authority area. Following a referral the panel will assess the extent to which identified individuals are vulnerable to being drawn into terrorism, and, where considered appropriate and necessary consent is obtained, arrange for support to be provided to those individuals. Section 38 of the CTSA 2015 requires partners of Channel panels to co-operate with the panel in the carrying out of its functions and with the police in providing information about a referred individual. Schools and colleges are required to have regard to Keeping Children Safe in Education and, as partners, are required to cooperate with local Channel panels.

11 Child Missing Education:

All children, regardless of their circumstances, are entitled to a full time education which is suitable to their age, ability, aptitude and any special educational needs they may have. Local authorities have a duty to establish, as far as it is possible to do so, the identity of children of compulsory school age who are missing education in their area.

11.1 A child going missing from education is a potential indicator of abuse or neglect. School and college staff should follow the school's or college's procedures for dealing with children that go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of their going missing in future.

11.2 Schools should put in place appropriate safeguarding policies, procedures and responses for children who go missing from education, particularly on repeat occasions. It is essential that all staff are alert to signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns such as travelling to conflict zones, FGM and forced marriage.

The law requires all schools to have an admission register and, with the exception of schools where all pupils are boarders, an attendance register. All pupils must be placed on both registers.

11.3 All schools must inform their local authority of any pupil who is going to be deleted from the admission register where they:

- have been taken out of school by their parents and are being educated outside the school system e.g. home education;
- have ceased to attend school and no longer live within reasonable distance of the school at which they are registered;
- have been certified by an appropriate medical practitioner as unlikely to be in a fit state of health to attend school before ceasing to be of compulsory school age, and

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

neither he/she nor his/her parent has indicated the intention to continue to attend the school after ceasing to be of compulsory school age;

- are in custody for a period of more than four months due to a final court order and the proprietor does not reasonably believe they will be returning to the school at the end of that period; or,
- have been permanently excluded.

- 11.4 The local authority must be notified when a school is to delete a pupil from its register under the above circumstances. **Schools should contact the Admissions section: Tel: 0151 666 4600.** This should be done as soon as the grounds for deletion are met, but no later than deleting the pupil's name from the register. It is essential that schools comply with this duty, so that local authorities can, as part of their duty to identify children of compulsory school age who are missing education, follow up with any child who might be in danger of not receiving an education and who might be at risk of abuse or neglect.

All schools must inform the local authority of any pupil who fails to attend school regularly, or has been absent without the school's permission for a continuous period of 10 school days or more, at such intervals as are agreed between the school and the local authority (or in default of such agreement, at intervals determined by the Secretary of State).

12 Child Exploitation (CE):

- 12.1 **Child Criminal Exploitation:** While there is still no legal definition of 'Child Criminal Exploitation' or CCE, it is increasingly being recognised as a major factor behind crime in communities across Merseyside and the UK, while also simultaneously victimising vulnerable young people and leaving them at risk of harm. A simple definition of CCE is:

CCE often occurs without the victim being aware that they are being exploited and involves young people being encouraged, cajoled or threatened to carry out crime for the benefit of others. In return they are offered friendship or peer acceptance, but also cigarettes, drugs (especially cannabis), alcohol or even food and accommodation.

- 12.2 County lines is a term used to describe gangs, groups or drug networks that supply drugs from urban to suburban areas across the country, including market and coastal towns, using dedicated mobile phone lines or 'deal lines'. They exploit children and vulnerable adults to move the drugs and money to and from the urban area, and to store the drugs in local markets. They will often use intimidation, violence and weapons, including knives, corrosives and firearms.

County lines is a major, cross-cutting issue involving drugs, violence, gangs, safeguarding, criminal and sexual exploitation, modern slavery, and missing persons; and the response to tackle it involves the police, the National Crime Agency, a wide range of Government departments, local government agencies and voluntary and community sector organisations. County lines activity and the associated violence, drug dealing and exploitation has a devastating impact on young people, vulnerable adults and local communities.

Further information and PAN Merseyside CE / CCE Documentation can be found here:

<https://www.wirralsafeguarding.co.uk/child-criminal-exploitation-and-county-lines/>

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

- 12.3 **Child Sexual Exploitation:** Child sexual exploitation is a form of child sexual abuse. It occurs where an individual or group takes advantage of an imbalance of power to coerce, manipulate or deceive a child or young person under the age of 18 into sexual activity (a) in exchange for something the victim needs or wants, and/or (b) for the financial advantage or increased status of the perpetrator or facilitator. The victim may have been sexually exploited even if the sexual activity appears consensual. Child sexual exploitation does not always involve physical contact; it can also occur through the use of technology. Further information and documentation can be found here:

<https://www.wirralsafeguarding.co.uk/child-sexual-exploitation-cse/>

13 Online Safety:

The use of technology has become a significant component of many safeguarding issues. Child sexual exploitation; radicalisation; sexual predation- technology often provides the platform that facilitates harm. An effective approach to online safety empowers a school or college to protect and educate the whole school or college community in their use of technology and establishes mechanisms to identify, intervene and escalate any incident where appropriate.

The breadth of issues classified within online safety is considerable, but can be categorised into three areas of risk:

- content: being exposed to illegal, inappropriate or harmful material
- contact: being subjected to harmful online interaction with other users
- conduct: personal online behaviour that increases the likelihood of, or causes, harm

For online safety, there is recognition in this guidance that most children are using data on their phones, on the 3G or the 4G network. In schools, this means that not only must staff think about filtering and monitoring within the school's infrastructure, they also need to have a policy about children accessing the internet whilst they're at school.

13.1 Filters and monitoring

Governing bodies and proprietors should be doing all that they reasonably can to limit children's exposure to the above risks from the school or colleges IT system or use of mobile data sources. As part of this process governing bodies and proprietors should ensure their school has appropriate filters and monitoring systems in place; together with appropriate testing mechanisms. Whilst considering their responsibility to safeguard and promote the welfare of children, and provide them a safe environment in which to learn, governing bodies and proprietors should consider the age range of their pupils, the number of pupils, how often they access the schools IT system and the proportionality of costs Vs risks. The appropriateness of any filters and monitoring systems are a matter for individual schools and colleges and will be informed in part by the risk assessment required by the Prevent Duty.

For online safety, there is a recognition in this guidance that most children are using data on their phones, on the 3G or the 4G network. In schools, this means that not only must staff

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

think about filtering and monitoring within the school's infrastructure, they also need to have a policy about children accessing the internet whilst they're at school.

There is guidance below designed to help parents and carers to keep their children as safe as possible when online

<https://www.wirralsafeguarding.co.uk/online-safety-guidance-parents/>

14 Pre-Appointment Checks:

14.1 Any offer of appointment made to a successful candidate, including one who has lived or worked abroad, must be conditional on satisfactory completion of the necessary pre-employment checks.

14.2 When appointing new staff, schools and colleges must

- Verify a candidate's identity. Identification checking guidelines can be found on the GOV.UK website;
- obtain (via the applicant) an enhanced DBS certificate (including barred list information, for those who will be engaging in regulated activity);
- obtain a separate barred list check if an individual will start work in regulated activity before the DBS certificate is available;
- the school needs to ensure that appropriate checks are carried out to ensure that individuals are not disqualified under the Childcare (Disqualification) Regulations 2009.
- verify the candidate's mental and physical fitness to carry out their work responsibilities. A job applicant can be asked relevant questions about disability and health in order to establish whether they have the physical and mental capacity for the specific role;
- verify the person's right to work in the UK. If there is uncertainty about whether an individual needs permission to work in the UK, follow advice on the GOV.UK website;
- if the person has lived or worked outside the UK, make any further checks the school or college consider appropriate and
- verify professional qualifications, as appropriate.
- carry out prohibition check for all staff with QTS
- complete a risk assessment for each volunteers to decide whether they need to do an enhanced DBS check or not. (Please note:, even if it is decided an enhanced DBS is to be requested, if the volunteer is not in regulated activity, then you're not legally allowed to do a barred list check).

Further guidance can be found in Keeping Children Safe in Education (2018) this can be accessed here:

https://assets.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/707761/Keeping_Children_Safe_in_Education_-_September_2018.pdf

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

15 Single Central Record:

15.1 Schools and colleges must keep a single central record. The single central record must cover the following people:

- all staff (including supply staff, and teacher trainees on salaried routes) who work at the school: in colleges, this means those providing education to children; and
- The information that must be recorded in respect of staff members (including teacher trainees on salaried routes) is whether the following checks have been carried out or certificates obtained, and the date on which each check was completed/certificate obtained:
 - an identity check;
 - a barred list check;
 - an enhanced DBS check/certificate;
 - a prohibition from teaching check;
 - further checks on people who have lived or worked outside the UK; this would include recording checks for those EEA teacher sanctions and restrictions
 - a check of professional qualifications; and
 - a check to establish the person's right to work in the United Kingdom.

15.2 For supply staff, schools should also include whether written confirmation that the employment business supplying the member of supply staff has carried out the relevant checks and obtained the appropriate certificates, whether any enhanced DBS check certificate has been provided in respect of the member of supply staff, and the date that confirmation was received

15.3 Maintained school governors

Governors in maintained schools are required to have an enhanced criminal records certificate from the DBS. It is the responsibility of the governing body to apply for the certificate for any of their governors who does not already have one. Governance is not a regulated activity and so they do not need a barred list check unless, in addition to their governance duties, they also engage in regulated activity.

15.4 The SCR shall be updated in the light of any further legislation

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

16 Sexting:

'Sexting' is one of a number of 'risk-taking' behaviours associated with the use of digital devices, social media or the internet. It is accepted that young people experiment and challenge boundaries and therefore the risks associated with 'online' activity can never be completely eliminated. However Sandbrook Primary School takes a pro-active approach to help students to understand, assess, manage and avoid the risks associated with 'online activity'. The school recognises its duty of care to its young people who do find themselves involved in such activity as well as its responsibility to report such behaviours where legal or safeguarding boundaries are crossed.

There are a number of definitions of 'sexting' but for the purposes of this policy sexting is simply defined as:

- Images or videos generated — by children under the age of 18, — or of children under the age of 18 that are of a sexual nature or are indecent.
- These images are shared between young people and/or adults via a mobile phone, handheld device, computer, 'tablet' or website with people they may not even know.

STEPS TO TAKE IN THE CASE OF AN INCIDENT

Step 1 - Disclosure by a student Sexting disclosures should follow the normal safeguarding practices and protocols (see Safeguarding Policy).

A student is likely to be very distressed especially if the image has been circulated widely and if they don't know who has shared it, seen it or where it has ended up. They will need pastoral support during the disclosure and after the event. They may even need immediate protection or a referral to police or social services; parents should be informed as soon as possible (police advice permitting). The following questions will help decide upon the best course of action:

- Is the student disclosing about themselves receiving an image, sending an image or sharing an image?
- What sort of image is it? Is it potentially illegal or is it inappropriate?
- Are the school child protection and safeguarding policies and practices being followed?
- For this reason a member of the Safeguarding team should be involved as soon as possible.
- How widely has the image been shared and is the device in their possession?
- Is it a school device or a personal device
- Does the student need immediate support and/or protection?
- Are there other students and/or young people involved?
- Do they know where the image has ended up?

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

Step 2- Searching a device – what are the rules?

The policy allows for a device to be examined, confiscated and securely stored if there is reason to believe it contains indecent images or extreme pornography. When searching a mobile device the following conditions should apply:

- The search is conducted by the Headteacher or a person authorised by them and one other person
- The search should normally be conducted by a member of the same gender as the person being searched. However if the image being searched for is likely to be of a different gender to the person 'in possession' then the device should only be viewed by a member of the same gender as the person whose image it is. If any illegal images of a young person are found the Safeguarding Team will discuss this with the Police (see Appendices 1, 2 and 3). The Association of Chief Police Officers (ACPO) advise that as a general rule it will almost always be proportionate to refer any incident involving 'aggravated' sharing of images to the Police, whereas purely 'experimental' conduct may proportionately dealt with without such referral, most particularly if it involves the young person sharing images of themselves. 'Experimental conduct' commonly refers to that shared between two individuals (e.g. girlfriend and boyfriend) with no intention to publish the images further (see Appendix 2). Coercion is not a feature of such conduct, neither are requests for images sent from one person to multiple other young persons. Any conduct involving, or possibly involving, the knowledge or participation of adults should always be referred to the police. If an 'experimental' incident is not referred to the Police, the reasons for this should be recorded in the school's 'Safeguarding Incidents Log'. Always put the young person first. Do not search the device if this will cause additional stress to the student/person whose image has been distributed. Instead rely on the description by the young person, secure the advice and contact the Police.

Never

- Search a mobile device even in response to an allegation or disclosure if this is likely to cause additional stress to the student/young person UNLESS there is clear evidence to suggest not to do so would impede a police inquiry.
- Print out any material for evidence
- Move any material from one storage device to another

Always

- Inform and involve the Safeguarding Team who will ensure that the Designated Safeguarding Lead is able to take any necessary strategic decisions.
- Record the incident. The Safeguarding Team employ a systematic approach to the recording of all safeguarding issues
- Act in accordance with school safeguarding search and confiscation policies and procedures If there is an indecent image of a child on a website or a social networking site then the Safeguarding Team will report the image to the site hosting it. Under normal circumstances the team would follow the reporting procedures on the respective website; however, in the case of a sexting incident

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

involving a child or young person where it may be felt that they may be at risk of abuse then the team will report the incident directly to CEOP www.ceop.police.uk/ceopreport, so that law enforcement can make an assessment, expedite the case with the relevant provider and ensure that appropriate action is taken to safeguard the child.

Step 3 - What to do and not do with the image If the image has been shared across a personal mobile device:

Always

- Confiscate and secure the device(s). Close down or switch the device off as soon as possible. This may prevent anyone removing evidence 'remotely'.

Never

- View the image unless there is a clear reason to do so or view it without an additional adult present (this additional person does not need to view the image and certainly should not do so if they are of a different gender to the person whose image has been shared). The viewing of an image should only be done to establish that there has been an incident which requires further action.
- Send, share or save the image anywhere
- Allow students to do any of the above

If the image has been shared across a school network, a website or a social network:

Always

- Block the network to all users and isolate the image

Never

- Send or print the image
- Move the material from one place to another
- View the image outside of the protocols in the school's safeguarding and child protection policies and procedures.

Step 4 - Who should deal with the incident

Often, the first port of call for a student is a class teacher. Regardless of who the initial disclosure is made to she/he must act in accordance with the school safeguarding and/or child protection policy, ensuring that the DSL deals with the incident. The Designated Safeguarding Lead should always record the incident. There may be instances where the image needs to be viewed and this should be done in accordance with protocols.

Step 5 - Deciding on a response

There may be many reasons why a student has engaged in sexting – it may be a sexual exploration scenario or it may be due to coercion. It is important to remember that it won't always be

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

appropriate to inform the police; this will depend on the nature of the incident (see Appendix 1 for definitions). However, as a school it is important that incidents are consistently recorded. It may also be necessary to assist the young person in removing the image from a website or elsewhere. If indecent images of a young person are found:

- Act in accordance with the Safeguarding policy i.e. inform the Safeguarding Team
- Store the device securely
- The Safeguarding Team will assist the Guidance/Pastoral team to carry out a risk assessment in relation to the young person (Use Appendices 2 and 3 for support)
- The Safeguarding Team will make a referral
- The Safeguarding Team will contact the police (if appropriate). Referrals may be made to Social Care but where a crime may thought to have taken place the police are the first port of call. Young persons who have engaged in 'experimental sexting' which is contained between two persons will be referred to CYPD SC for support and guidance. Those who are felt to be victims of 'sexting' will also be referred to CYPD SC at a point where the police feel that this will not impede an investigation.
- The young person's Guidance/Pastoral team will put the necessary safeguards in place for the student, e.g. they may need counselling support or immediate protection.
- Inform parents and/or carers about the incident and how it is being managed.

Step 6 - Containment and Prevention

The young persons involved in 'sexting' may be left feeling sensitive and vulnerable for some time. They will require monitoring by and support from their teacher. Where cases of 'sexting' become widespread or there is thought to be the possibility of contagion then the school will reinforce the need for safer 'online' behaviour using a variety of resources (see Appendix 3). Other staff may need to be informed of incidents and should be prepared to act if the issue is continued or referred to by other students. The school, its students and parents should be on high alert, challenging behaviour and ensuring that the victim is well cared for and protected. The students' parents should usually be told what has happened so that they can keep a watchful eye over the young person especially when they are online at home. Creating a supportive environment for students in relation to the incident is very important.

Preventative educational programmes on sexting can be found on CEOP's advice-giving website www.thinkunknow.co.uk and the South West Grid for learning have developed advice for young people at www.swgfl.org.uk/sextinghelp

Step 7 - Review outcomes and procedures with the aim of preventing future incidents

The frequency or severity of such incidents may be such that the school will need to review its approach. Where this is the case Sandbrook Primary School will ensure that key policies are still relevant and can meet emerging issues; the school's infrastructure and technologies are robust enough to meet new challenges and adults and young persons are alerted to the issues such as safety mechanisms, support mechanisms and the legal implications of such behaviour.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

The Legal Position

It is important to be aware that young people involved in sharing sexual videos and pictures may be committing a criminal offence. Specifically, crimes involving indecent photographs (including pseudo images) of a person under 18 years of age fall under Section 1 of the Protection of Children Act 1978 and Section 160 Criminal Justice Act 1988. Under this legislation it is a crime to:

- take an indecent photograph or allow an indecent photograph to be taken;
- make an indecent photograph (this includes downloading or opening an image that has been sent via email);
- distribute or show such an image;
- possess with the intention of distributing images;
- advertise; and
- possess such images

While any decision to charge individuals for such offences is a matter for the Crown Prosecution Service, it is unlikely to be considered in the public interest to prosecute children. However, children need to be aware that they may be breaking the law. Although unlikely to be prosecuted, children and young people who send or possess images may be visited by police and on some occasions media equipment could be removed. This is more likely if they have distributed images. The decision to criminalise children and young people for sending these kinds of images is a little unclear and may depend on local strategies. However, the current Association of Chief Police Officers (ACPO) position is that: 'ACPO does not support the prosecution or criminalisation of children for taking indecent images of themselves and sharing them. Being prosecuted through the criminal justice system is likely to be upsetting and distressing for children especially if they are convicted and punished. The label of sex offender that would be applied to a child or young person convicted of such offences is regrettable, unjust and clearly detrimental to their future health and wellbeing.' However, there are cases in which children and young people have been convicted and sent to prison. The important thing to remember is that whilst, as a school, we will want to consider the implications of reporting an incident over to the police, it is not our responsibility to make decisions about the seriousness of the matter; that responsibility lies with the Police and the CPS hence the requirement for the school to refer. In summary sexting is classed as illegal as it constitutes sharing and/or possessing an indecent image of a child.

DISCLOSURE	Tell DSL
DO NOT LOOK	
SECURE	Confiscate /Secure device or network
INFORM	Police or CYPD SC
SUPPORT	Support young person
EDUCATE	Provide education to Y5 and Y6

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

17 Peer on Peer Abuse:

Introduction to abuse and harmful behaviour Abusive behaviour can happen to pupils in schools and settings and it is necessary to consider what abuse is and looks like, how it can be managed and what appropriate support and intervention can be put in place to meet the needs of the individual and what preventative strategies may be put in place to reduce further risk of harm.

Abuse is abuse and should never be tolerated or passed off as 'banter' or 'part of growing up'. Equally, abuse issues can sometimes be gender specific e.g. girls being sexually touched/assaulted and boys being subject to initiation/hazing type violence (KCSIE, 2016). It is important to consider the forms abuse may take and the subsequent actions required.

Types of abuse

There are many forms of abuse that may occur between peers and this list is not exhaustive. Each form of abuse or prejudiced behaviour is described in detail followed by advice and support on actions to be taken.

Physical abuse e.g. (biting, hitting, kicking, hair pulling etc.)

Physical abuse may include, hitting, kicking, nipping, shaking, biting, hair pulling, or otherwise causing physical harm to another person. There may be many reasons why a child harms another and it is important to understand why a young person has engaged in such behaviour, including accidentally before considering the action or punishment to be undertaken.

Sexually harmful behaviour/sexual abuse e.g. (inappropriate sexual language, touching, sexual assault etc.)

Sexually harmful behaviour from young people is not always contrived or with the intent to harm others. There may be many reasons why a young person engages in sexually harmful behaviour and it may be just as distressing to the young person who instigates it as well as the young person it is intended towards. Sexually harmful behaviour may range from inappropriate sexual language, inappropriate role play, to sexually touching another or sexual assault/abuse.

Bullying (physical, name calling, homophobic etc.)

Bullying is unwanted, aggressive behaviour among school aged children that involves a real or perceived power imbalance. The behaviour is repeated, or has the potential to be repeated, over time. Both young people who are bullied and who bully others may have serious, lasting problems. In order to be considered bullying, the behaviour must be aggressive and include:

- An Imbalance of Power: Young people who bully use their power—such as physical strength, access to embarrassing information, or popularity—to control or harm others. Power imbalances can change over time and in different situations, even if they involve the same people.
- Repetition: Bullying behaviours happen more than once or have the potential to happen more than once. Bullying includes actions such as making threats, spreading rumours, attacking someone physically or verbally or for a particular reason e.g. size, hair colour, gender, sexual orientation, and excluding someone from a group on purpose.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

Cyber bullying

Cyberbullying is the use of phones, instant messaging, e-mail, chat rooms or social networking sites such as Facebook and Twitter to harass threaten or intimidate someone for the same reasons as stated above. It is important to state that cyber bullying can very easily fall into criminal behaviour under the Malicious Communications Act 1988 under section 1 which states that electronic communications which are indecent or grossly offensive, convey a threat or false information or demonstrate that there is an intention to cause distress or anxiety to the victim would be deemed to be criminal. This is also supported by the Communications Act 2003, Section 127 which states that electronic communications which are grossly offensive or indecent, obscene or menacing, or false, used again for the purpose of causing annoyance, inconvenience or needless anxiety to another could also be deemed to be criminal behaviour. If the behaviour involves the use of taking or distributing indecent images of young people under the age of 18 then this is also a criminal offence under the Sexual Offences Act 2003. Outside of the immediate support young people may require in these instances, the school will have no choice but to involve the police to investigate these situations.

Sexting

Sexting is when someone sends or receives a sexually explicit text, image or video. This includes sending 'nude pics', 'rude pics' or 'nude selfies'. Pressuring someone into sending a nude picture can happen in any relationship and to anyone, whatever their age, gender or sexual preference. However, once the image is taken and sent, the sender has lost control of the image and these images could end up anywhere. By having in their possession, or distributing, indecent images of a person under 18 on to someone else, young people are not even aware that they could be breaking the law as stated as these are offences under the Sexual Offences Act 2003.

Initiation/Hazing

Hazing is a form of initiation ceremony which is used to induct newcomers into an organisation such as a private school, sports team etc. There are a number of different forms, from relatively mild rituals to severe and sometimes violent ceremonies. The idea behind this practice is that it welcomes newcomers by subjecting them to a series of trials which promote a bond between them. After the hazing is over, the newcomers also have something in common with older members of the organisation, because they all experienced it as part of a rite of passage. Many rituals involve humiliation, embarrassment, abuse, and harassment.

Prejudiced Behaviour

The term prejudice-related bullying refers to a range of hurtful behaviour, physical or emotional or both, which causes someone to feel powerless, worthless, excluded or marginalised, and which is connected with prejudices around belonging, identity and equality in wider society – in particular, prejudices to do with disabilities and special educational needs, ethnic, cultural and religious backgrounds, gender, home life, (for example in relation to issues of care, parental occupation, poverty and social class) and sexual identity (homosexual, bisexual, transsexual).

Expected action taken from all staff

Although the type of abuse may have a varying effect on the victim and initiator of the harm, these simple steps can help clarify the situation and establish the facts before deciding the consequences

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

for those involved in perpetrating harm. It is important to deal with a situation of peer abuse immediately and sensitively. It is necessary to gather the information as soon as possible to get the true facts around what has occurred as soon after the child(ren) may have forgotten. It is equally important to deal with it sensitively and think about the language used and the impact of that language on both the children and the parents when they become involved. For example; do not use the word perpetrator, this can quickly create a 'blame' culture and leave a child labelled.

In all cases of peer on peer abuse it is necessary that all staff are trained in dealing with such incidents, talking to young people and instigating immediate support in a calm and consistent manner. Staff should not be prejudiced, judgemental, dismissive or irresponsible in dealing with such sensitive matters.

COMPLETE PINK FORM AND FOLLOW ADVICE OF DSL

Gather the Facts

Speak to all the young people involved separately, gain a statement of facts from them and use consistent language and open questions for each account. The easiest way to do this is not to have a line of questioning but to ask the young people to tell you what happened. Only interrupt the young person from this to gain clarity with open questions, 'where, when, why, who'. (What happened? Who observed the incident? What was seen? What was heard? Did anyone intervene?)

Consider the Intent (begin to Risk Assess)

Has this been a deliberate or contrived situation for a young person to be able to harm another?

Decide on your next course of action

If from the information that you gather you believe any young person to be at risk of significant harm you must make a safeguarding referral to social care immediately (where a crime has been committed the police should be involved also). If this is the case, once social care has been contacted and made a decision on what will happen next then you will be informed on your next steps.

If social care and the police intend to pursue this further they may ask to interview the young people in school or they may ask for parents to come to school to be spoken to also. It is important to be prepared for every situation and the potential time it may take.

It may also be that social care feel that it does not meet their criteria in which case you may challenge that decision, with that individual or their line manager. If on discussion however, you agree with the decision, you may then be left to inform parents.

Informing parents

If, once appropriate advice has been sought from police/social care you have agreement to inform parents or have been allocated that role from the other services involved then you need to inform the parents as soon as possible. If services are not going to be involved then equally, this information may need to be shared with parents. If a young person is deemed to be 'Gillick Competent' following the 'Fraser' guidelines and does not wish you to share the information with parents, then the school

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

must consider this especially for example if the young person is pregnant and this is why they are being bullied (unless this has occurred through significant harm in which case a criminal/social care case is likely or the young person is under the age of 13).

In all circumstances where the risk of harm to the child is evident then the school should encourage the young person to share the information with their parent or even with them (they may be scared to tell parents that they are being harmed in any way). Where school can evidence they are acting in the best interests of the young person they would not be criticised, however this would be the case if they actively breached the rights and choices of the young person.

The best way to inform parents is face to face. Although this may be time consuming, the nature of the incident and the type of harm/abuse a young person may be suffering can cause fear and anxiety to parents whether their child is the child who was harmed or who harmed another.

Points to consider:

What is the age of the children involved?

How old are the young people involved in the incident and is there any age difference between those involved? (In relation to sexual exploration, children under the age of 5, in particular 1-4 year olds who are learning toileting skills may show a particular interest in exploration at around this stage. This, however should not be overlooked if other issues arise (see following)

Where did the incident or incidents take place?

Was the incident in an open, visible place to others? If so was it observed? If not, is more supervision required within this particular area?

What was the explanation by all children involved of what occurred?

Can each of the young people give the same explanation of the incident and also what is the effect on the young people involved? Is the incident seen to be bullying for example, in which case regular and repetitive? Is the version of one young person different from another and why?

What is each of the children's own understanding of what occurred?

Do the young people know/understand what they are doing? E.g. do they have knowledge of body parts, of privacy and that it is inappropriate to touch? Is the young person's explanation in relation to something they may have heard or been learning about that has prompted the behaviour? Is the behaviour deliberate and contrived? Does the young person have understanding of the impact of their behaviour on the other person? In dealing with an incident of this nature the answers are not always clear cut. If you are concerned or unsure as to whether or not there is any risk involved, please seek advice from Children's Services Social Care.

Repetition

Has the behaviour been repeated to an individual on more than one occasion? In the same way it must be considered has the behaviour persisted to an individual after the issue has already been discussed or dealt with and appropriately resolved?

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

Next Steps

Once the outcome of the incident(s) has been established it is necessary to ensure future incidents of abuse do not occur again and consider the support and intervention required for those involved.

For the young person who has been harmed

What support they require depends on the individual young person. It may be that they wish to seek counselling or one to one support via a mentor. It may also be that they feel able to deal with the incident(s) on their own or with support of family and friends. In which case it is necessary that this young person continues to be monitored and offered support should they require it in the future. If the incidents are of a bullying nature, the young person may need support in improving peer groups/relationships with other young people or some restorative justice work with all those involved may be required.

Other interventions that could be considered may target a whole class or year group for example a speaker on cyber bullying, relationship abuse etc. It may be that through the continued curriculum of PHSE and SMSC that certain issues can be discussed and debated more frequently.

If the young person feels particularly vulnerable it may be that a risk assessment can be put in place for them whilst in school so that they have someone named that they can talk to, support strategies for managing future issues and identified services to offer additional support.

For the young person who has displayed harmful behaviour

In this circumstance it is important to find out why the young person has behaved in such a way. It may be that the young person is experiencing their own difficulties and may even have been harmed themselves in a similar way. In such cases support such as one to one mentoring or counselling may also be necessary. Particular support from identified services may be necessary through a CAF/strengthening families/early help referral and the young person may require additional support from family members.

Once the support required to meet the individual needs of the young person has been met, it is important that young person receives a consequence for their behaviour. This may be in the form of restorative justice e.g. making amends with the young person they have targeted if this has been some form of bullying. In the cases of sexually harmful behaviour it may be a requirement for the young person to engage in one to one work with a particular service or agency (if a crime has been committed this may be through the police or youth offending service). If there is any form of criminal investigation ongoing it may be that this young person cannot be educated on site until the investigation has concluded. In which case, the young person will need to be provided with appropriate support and education whilst off site.

Even following the conclusion of any investigation the behaviour that the young person has displayed may continue to pose a risk to others in which case an individual risk assessment may be required. This should be completed via a multiagency response to ensure that the needs of the young person and the risks towards others are measured by all of those agencies involved including the young person and their parents. This may mean additional supervision of the young person or protective strategies if the young person feels at risk of engaging in further inappropriate or harmful behaviour.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

The school may also choose a punishment as a consequence such as exclusion or internal exclusion/inclusion/seclusion for a period of time to allow the young person to reflect on their behaviour.

After care

It is important that following the incident the young people involved continue to feel supported and receive help even if they have stated that they are managing the incident. Sometimes the feelings of remorse, regret or unhappiness may occur at a much later stage than the incident. It is important to ensure that the young people do not engage in any further harmful behaviour either towards someone else or to themselves as a way of coping (e.g. self-harm). In which case, regular reviews with the young people following the incident(s) are imperative.

Preventative Strategies for Schools and Settings

For all schools and settings, it is important to develop appropriate strategies in order to prevent the issue of peer on peer abuse rather than manage the issues in a reactive way.

Firstly, and most importantly for schools and settings is recognition that peer on peer abuse can and will occur on any site even with the most stringent of policies and support mechanisms. In which case it is important to continue to recognise and manage such risks and learn how to improve and move forward with strategies in supporting young people to talk about any issues and through sharing information with all staff.

This can be supported by ensuring that each school/setting has an open environment where young people feel safe to share information about anything that is upsetting or worrying them. This can be strengthened through a strong and positive PHSE/SMSC curriculum that tackles such issues as prejudiced behaviour and gives children an open forum to talk things through rather than seek one on one opportunities to be harmful to one another.

To enable such an open and honest environment it is necessary to ensure the whole workforce feels confident and enabled to talk about issues and challenge perceptions of young people including use of inappropriate language and behaviour towards one another. In order to create such an environment, it is necessary for whole staff training and CPD around abusive behaviours and talking to young people in a way that continues to create an open and honest environment without prejudice. It is incredibly important that staff do not dismiss issues as 'banter' or 'growing up' or compare them to their own experiences of childhood. It is necessary that staff consider each issue and each individual in their own right before taking action. If staff minimise the concerns raised it may result in a young person seeking no further help or advice.

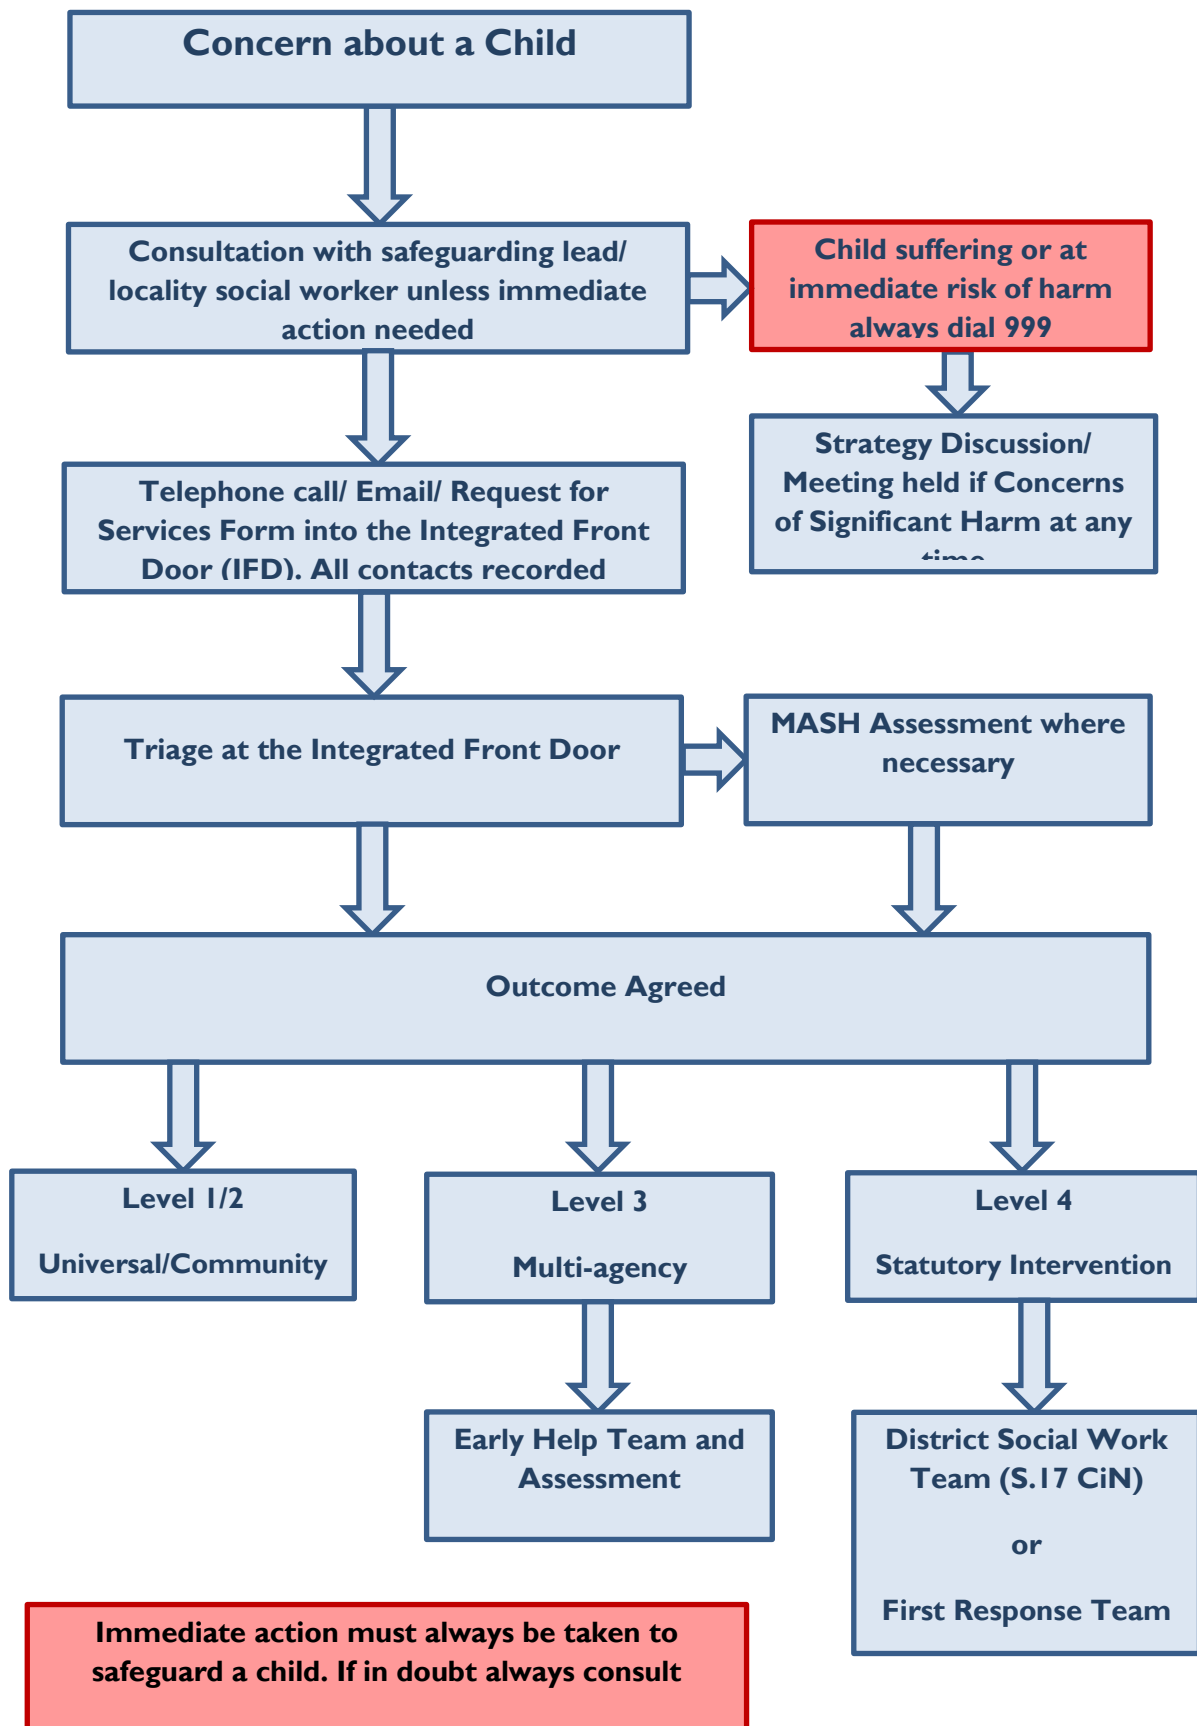

It is important that signposting is available to young people in the event that they don't feel confident raising an issue to staff or a peer. It is useful to have a resource board with support services on a wide range of issues so young people can seek their own solutions should they wish to. In the same way external services or support programmes could be brought in to talk to young people about specific issues in support of the prevention of peer on peer abuse.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

Finally, it is useful to ensure young people are part of changing their circumstances and that of the procedures within schools. Having a school council and pupil voice and encouraging young people to support changes and develop 'rules of acceptable behaviour' will go far in helping to create a positive ethos in school and one where all young people understand the boundaries of behaviour before it becomes abusive.

Flowchart: Actions where there are concerns about a child

WSCB March 2018

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

Flowchart: Disclosure and Barring Service criminal record checks and barred list checks

* Activities listed under the guidance's definition of regulated activity and which are carried out 'frequently'

7 Minute Briefing

Neglect

1. Background

Neglect is the most common reason for referral to Childrens Services. The definition of neglect is not as objective as other forms of abuse, and so relies on professional assessment.

2. What is it?

Professionals will often intervene with physical environment cases of neglect. However the the child will often see neglect in terms of emotional issues.

4. How to recognise it

Failure to provide: adequate food, shelter and clothing; adequate supervision; access to medical care; failure to protect from physical harm; unresponsive to child's emotional needs.

3. What is it?

Neglect is not a one off event but rather an accumulation of issues over time. It can happen to children of all ages including teenagers

5. Causes

In many cases the cause is recorded as either poor parental health (54%), domestic abuse (49%), substance misuse (49%), alcohol misuse (38%). This is unlikely to be a 'quick fix'.

6. Why it matters

Neglect can be fateful and affects the global development of children. Neglect can also affect longer term development with negative consequences for physical and mental health over the lifetime

7. Action

Look out for low level concerns and intervene early to assist families before crisis. Ensure you listen to the child's story. Complete an assessment to decide on assistance needed. Refer to targeted/social care.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

7 Minute Briefing

Domestic Abuse

1. Background

Domestic abuse can affect anyone from any background. Whilst the majority of cases are male on female violence there has been an increase of female on male violence and violence in same sex relationships.

2. What is it?

‘Any incident or pattern of incidents of controlling, coercive or threatening behaviour, violence or abuse between those aged 16 or over who are or have been intimate partners or family members, regardless of gender or sexuality’.

3. Types of abuse

Domestic abuse can take the following forms: Physical/sexual abuse and violence; psychological abuse and name-calling; financial abuse and control of money in the house; emotional abuse and emotional blackmail.

4. Why it matters?

In 90% of cases children are in the same or the next room when the incident occurs. They may be emotionally distressed witnessing abuse, or physically harmed themselves.

5. Local issues

The highest risk age for women is between 25-45. The highest risk of witnessing domestic abuse is in children aged under 5. The most referrals come from the Birkenhead area.

6. How to respond

Make sure that any immediate harm is managed. Inform the police if risk of harm is imminent. Discuss safety planning with the victim. Ensure safety of children is paramount.

7. Action

Recognise warning signs. Complete the DASH form with the adult victim (over 16) and the RIM form with the children. Make a referral to the MASH team. Refer to MARAC in those cases where risk is high.

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

7 Minute Briefing

Harmful Sexual Behaviour

1. What is Harmful Sexual Behaviour (HSB)

- HSB can be defined as : 'One or more children engaging in sexual discussions or acts that are inappropriate for their age or stage of development. These can range from using sexually explicit words and phrases to full penetrative sex with other children or adults'.

2. HSB Behaviours

- HSB includes both contact and non- contact behaviours (e.g. grooming, sexting, taking pictures) and the young person has displayed a harmful behavioural threat (verbal, physical or emotional) to coerce, threaten or intimidate a victim.

3. Consent

- To give consent to sex or a sexual act a person must be 16 years old or over, understand, and be able to make a choice or change their mind. If a young person is under the age of 13 years, under the Sexual Offences Act 2003 they cannot legally consent to any form of sexual activity.

4. Identifying HSB

- To help professionals to identify behaviour which might be harmful Brook have published a traffic light tool (available on the WSCB website)
- The tool provides a continuum of sexual behaviours from normal and healthy to harmful and provides a resource to identify, assess and respond appropriately to sexual behaviours

5. Response to children displaying HSB

- Using guidance document and traffic light tool professionals assess whether behaviour is healthy, inappropriate or harmful
- Any inappropriate or harmful behaviour triggers completion of a request for services form and strategy meeting

6. Key Information

- Around 90% of children who engage in HSB are adolescent boys
- Common features amongst children who present with HSB are a history of multiple abuse and disadvantage, and having a learning disability
- Both perpetrators and victims must be viewed under safeguarding and child protection procedures

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

APPENDIX TO SAFEGUARDING POLICY & PROCEDURE 2018-19

1 What is SFEF?

Supporting Families Enhancing Futures (SFEF) is a new model for working with children, young people and their families across levels 3 and 4 (Team Around the Family, Child in Need and Child Protection) of the Wirral Continuum of Need.

2 The principles of SFEF

1. Understand the world of the child(ren).
2. Understand the world of the adults
3. Recognise family strengths as well as concerns.
4. Engage families in the change process.
5. Measure change through actions and interventions that lead to child-focused outcomes.

3 The lived experience

The focus of the model is on understanding how issues within the family affect the child's daily lived experience. After a referral is made the child is spoken to about their 'day' from the moment they wake up to the moment they go to sleep. In this process their thoughts and feelings will be explored.

7 The plan

The plan will identify: Recognised strengths of the family; What professionals are concerned about (what needs to change); Who is going to complete actions (and by when).

The plan will be reviewed regularly to measure positive changes to the lived experience of the child(ren).

4 Single assessment

All practitioners in contact with the family will then be asked to feed into a single assessment. In the case of Child in Need and Child Protection this will be done via Liquid Logic. This assessment is co-ordinated and analysed by the Social Worker. All practitioners and the family will see the final assessment before the first multi-agency meeting.

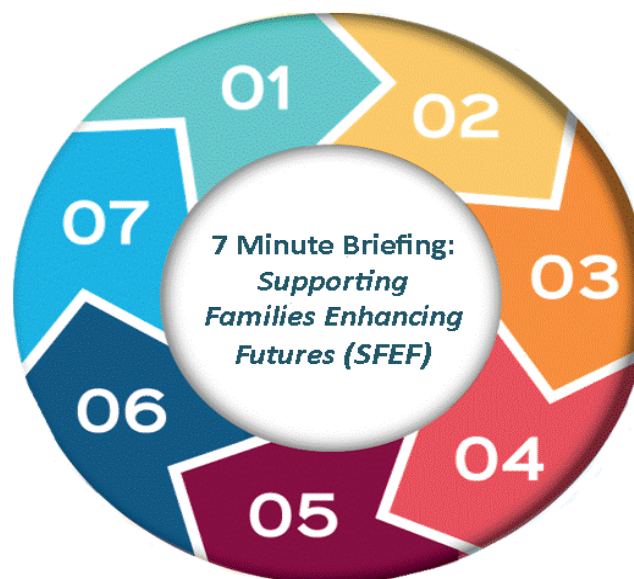

6 Traffic lights

Traffic lights will be used as an easy visual representation of levels of concern.

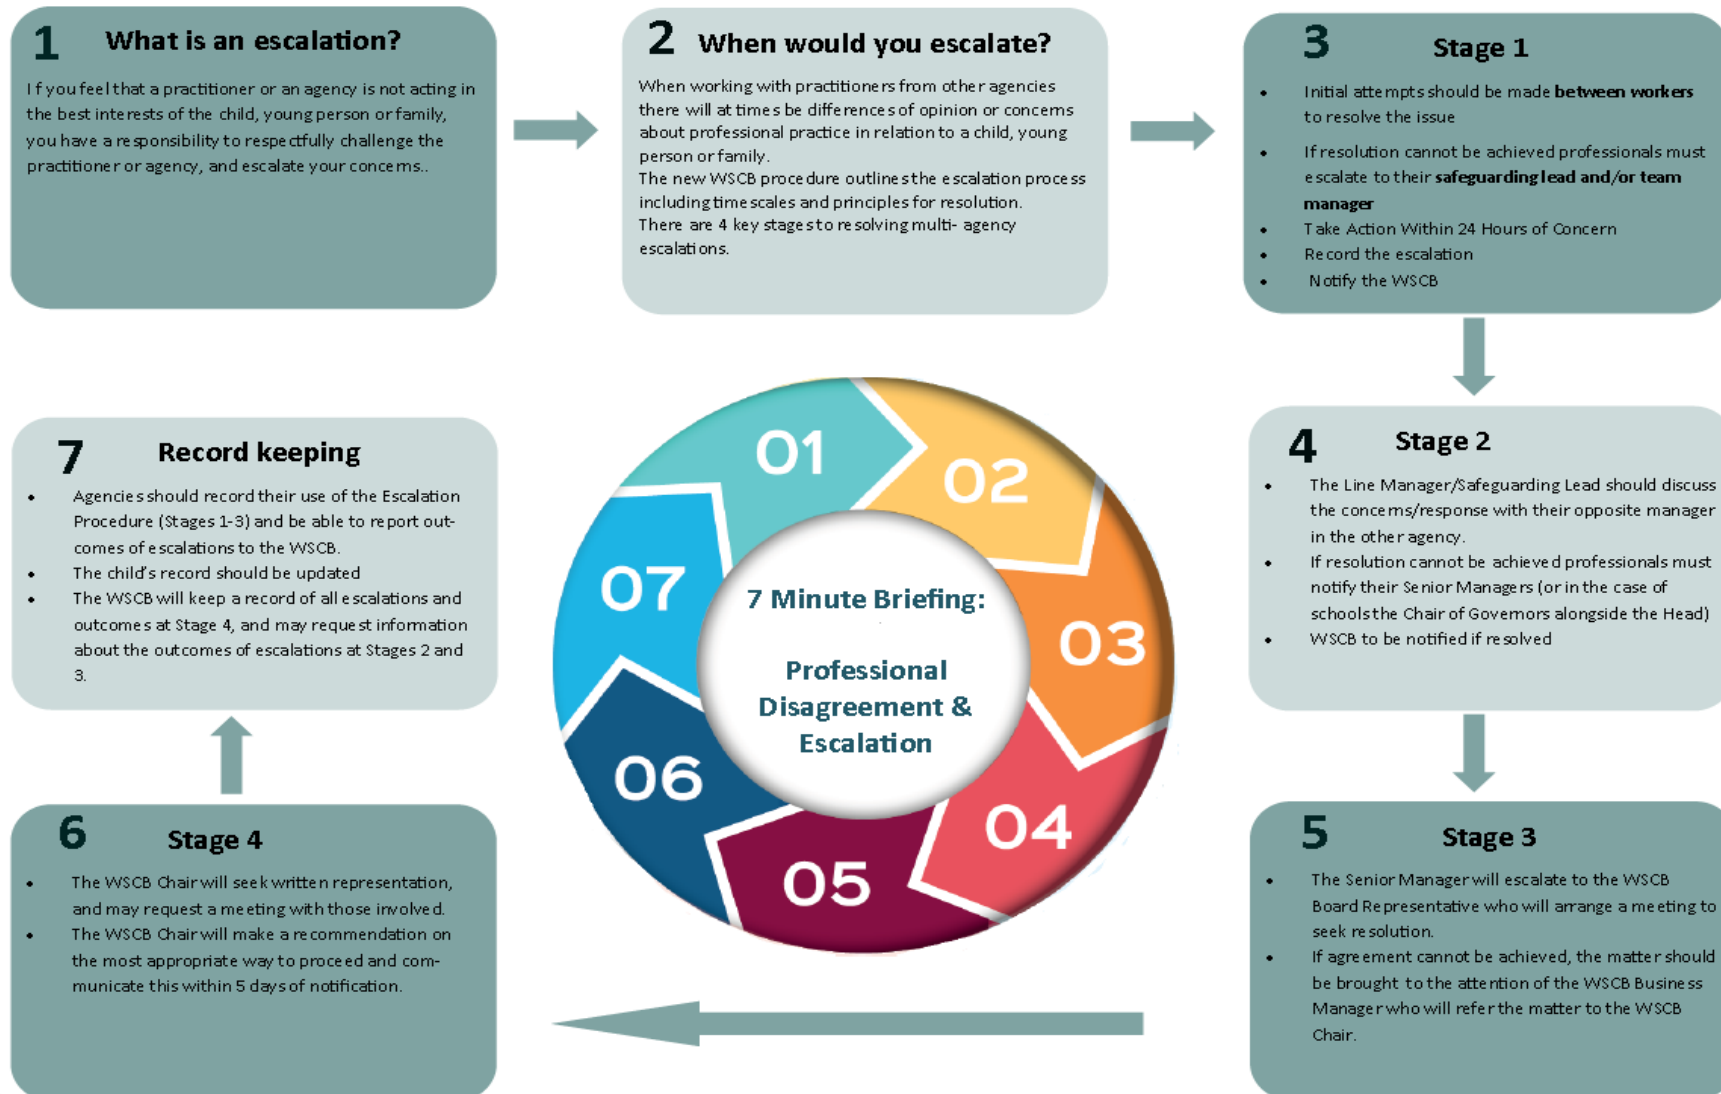

RED - developmental needs are not being met likely to cause significant harm to the child
AMBER - developmental needs are not being met may impact on the health and development of the child
GREEN - developmental needs are being met

5 Multi-agency meetings

The meeting room should be set up in a horseshoe shape with the focus being on the issues identified in the assessment, which are displayed at the front of the room. The focus of the discussion is then on how any issues will be addressed. The family are involved in this discussion with their views on concerns and strengths being explored.

County Lines Drugs & Exploitation Spot the Signs

County Lines is the police term for urban gangs supplying drugs to suburban areas and market and coastal towns using dedicated mobile phones or 'deal lines'. It involves child criminal exploitation as gangs use children and vulnerable people to move drugs and money. Gangs establish a base in the market location, typically by taking over the homes of local vulnerable adults by force or coercion in a practice referred to as 'cuckooing'.

A young person's involvement in county lines activity often leaves signs. A young person might exhibit some of these signs, either as a member or as an associate of a gang dealing drugs. Any sudden changes in a young person's lifestyle should be discussed with them. Some indicators of county lines involvement and exploitation are listed below, with those at the top of particular concern:

- Persistently going missing from school or home and / or being found out-of-area;
- Unexplained acquisition of money, clothes, or mobile phones
- Excessive receipt of texts / phone calls
- Relationships with controlling / older individuals or groups
- Leaving home / care without explanation
- Suspicion of physical assault / unexplained injuries
- Parental concerns
- Carrying weapons
- Significant decline in school results / performance
- Gang association or isolation from peers or social networks
- Self-harm or significant changes in emotional well-being

County Lines is a major , cross-cutting issue involving drugs, violence, gangs, safeguarding , criminal and sexual exploitation, modern slavery, and missing persons; and the response to tackle it involves the police, National Crime Agency, a wide range of Government departments, local government agencies and voluntary and community sector organisations.

If you have safeguarding concerns ring the Integrated Front Door on 0151 606 2008. If you believe a child is being harmed called 999

Intelligence and information about crimes can be reported anonymously to Crimestoppers on **0800 555111** or by phoning the police on **101**
