SAFER INTERNET

9th February for children in school

25th February 2.30pm for parents and carers

To celebrate the many positives of the internet, and to raise awareness of the issues that children and young people face online today, Mr Henderson will be delivering assemblies and activities for each year group on Safer Internet Day.

As a follow-up, Mr Henderson will be hosting an esafety session for parents and carers

The session will provide practical advice and safety tips to help manage online safety issues, and discussions surrounding suitable behaviour online. We highly recommend that you attend this event as technology moves so fast that we, as adults, are sometimes unaware of what our children are capable of online. This session is designed to help you become more aware of the safety messages that your children receive in school in order to reinforce them in your home environment.

Look out for the letters that will be going home shortly. **The session will be on Thursday 25th February at 2.30pm and will last for approximately 30 minutes, with time for questions too.**
